- A Being popular
- B. Being scientific
- C. Being costly
- D Being genuine

正确答案: C

7、单选 Which type of document below does not belong to product specification ?

- A. Agricultural product specification
- B Publishing product specification
- C Financial product specification
- D Industrial product specification

正确答案： B

8、单选 Which term below is not classified according to the range of their application?

- A Regional standards
- B International standards
- C National standards
- D Technical standards

正确答案： D

9、单选 Which of the following is not the criterion used to classify technical reports ?

- A In terms of amount of money
- B In terms of progress of research
- C In terms of contents
- D In terms of scope of circulation

正确答案： A

10、单选 Which of the following is not one of the four well - known American technical reports ?

- A INTERIM reports
- B AD reports
- C NASA reports
- D DOE reports

正确答案： A

11、 In the US, the patents are classified into

- A. Two types (utility and plant)
- B. Three types (utility, design and plant)
- C. Five types (utility, design, plant, invention and appearance)
- D. Four types (utility, design, plant and invention)

正确答案： B

第二章

1、单选 Which of the following scientists should be listed as the top one ?

- A Scientist whose h - index is 100
- B Scientist whose h - index is 90
- C Scientist whose h - index is 39
- D Scientist whose h - index is 60

正确答案： A

2、单选 The intentions of academic journals are the followings except for :

- A To disseminate academic information
- B To cultivate talents
- C To help researchers find jobs

D To lead the research directions

正确答案： C
